

Good News For Anyone Who Has struggled To Get IntoThe Park

Good news for anyone who had struggled to get into the park with a wheel chair mobility scooter or even a buggy, the Community Council has found a solution which will hopefully solve a lot of problems. Thanks to Swansea Forge, we have fitted a new RADAR key controlled wide gate at the Anderson Lane entrance. If you don't have a RADAR key but need one contact the Clerk who can advise where to get one. There is also going to be a RADAR Key controlled padlock on the main gate for ease of access there too.
