**2. To discuss the decarbonisation report produced by Timber Bale and agree next steps.**

The report which had been made available prior to the meeting was discussed and the various options looked at. It was decided that the author be contacted and asked if there was a particular order that should be followed, would we be able to spread the different elements over a couple of years or if everything needed to be done at the same time.

The Clerk was asked to bring the answers back to a future hall meeting which was arranged for the 3<sup>rd</sup> of June at 7.30pm

**3. To discuss and agree the placement of a bike rack at the hall**

The positioning of a bike rack at the hall was discussed, the wall to the left of the door seemed to be the best place but also the small wall in front of the container would also suffice depending on the type of rack purchased. The Clerk was asked to obtain some quotes ready for the June meeting.
